A lean organization understands customer value and focuses its key processes to continuously increase it. The ultimate goal is to provide perfect value to the customer through a perfect value creation process that has zero waste.

What is Lean?

Please, never forget this: It ceases to be Lean management the moment it is used for bad. Lean must do no harm to people - employees, students, payers, communities, suppliers, etc. Unfortunately, it is difficult for people who are unfamiliar with Lean management to discern the difference between Lean done right and Lean done wrong.
