Ruling The Waves The Political

Beginning with the development of the compass, Ruling the Waves examines a series of technological revolutions that promised, in their time, to transform the world's politics and business. With Debora Spar's gifted storytelling, each chapter reads like an adventure tale as she recounts the histories of the printing press and maps; of the telegraph, radio, and satellite television; of software, encryption, and the advent of digital music.

"The ideas of the ruling class are in every epoch the ruling ideas, i.e. the class which is the ruling material force of society, is at the same time its ruling intellectual force. The class which has the means of material production at its disposal, has control at the same time over the means of mental production, so that thereby, generally speaking, the ideas of those who lack the means of ...
