Human wayfinding in the natural environment has been practised for thousands of years. In the urban or built environment, few natural cues are available and other aids to wayfinding are needed. This paper considers the problems of wayfinding in airport terminals, what cues are available and how passengers use them to reach their destinations.

**Wayfinding and Airport Terminal Design | The Journal of ...**

Whilst wayfinding applies to cross disciplinary practices including architecture, art and design, signage design, psychology, environmental studies, one of the most recent definitions by Paul Symonds et al. defines wayfinding as "The cognitive, social and corporeal process and experience of locating, following or discovering a route through and ...
